PROFESSIONAL SUMMARY

Third-year Computer Engineering undergraduate at the University of Sri Jayewardenepura with a strong interest in Software Engineering and Full-Stack Development. Hands-on experience designing and developing web, mobile, and backend applications using Java, Spring Boot, React, Next.js, Node.js, Python, and PostgreSQL. Experienced in building REST APIs, authentication and authorization systems, database-driven applications, and real-time features through academic and personal projects. Comfortable with debugging, API testing, Git/GitHub workflows, and collaborative development, with a strong willingness to learn and contribute in a professional software engineering environment.

EDUCATION

University of Sri Jayewardenepura

B.Sc. (Hons) in Computer Engineering | GPA: 3.513/4.00

Sri Lanka

Feb 2024 – Present

Jaffna Vembadi Girls' High School

G.C.E. Advanced Level – Physical Science Stream | Results: 2A, 1C

Jaffna, Sri Lanka

2020 – 2023

PROJECTS

E-Commerce Application

2026 - Present

- Built a full-stack e-commerce application with user authentication, product browsing, cart management, checkout, order history, and administrative product management.
- Developed the Spring Boot REST API with JWT authentication, role-based authorization, PostgreSQL persistence, stock validation, and backend-controlled order processing.
- Tech Stack: **Java, Spring Boot, Spring Security, PostgreSQL, Next.js, React**

PharmaShortage Predictor

2026 – Present

- Developing a data-driven project to explore pharmaceutical shortage patterns using publicly available drug-shortage datasets and basic data analysis.
- Built an openFDA data-audit workflow to inspect shortage records, identify useful fields, analyze data quality, and evaluate whether the available data can support future machine-learning analysis.
- Tech Stack: **Python, Pandas, scikit-learn, openFDA API**

Travel Planner

2026

- Built a full-stack travel planning application where authenticated users can create trips, add destinations, manage itineraries, and reorder itinerary items using drag-and-drop.
- Integrated PostgreSQL with Prisma ORM, user authentication, Google Maps and Geocoding APIs, image uploads, interactive maps, and 3D globe visualization.
- Tech Stack: **Next.js, React, TypeScript, PostgreSQL, Prisma, Google Maps API**

IntelliGate – Smart Gate Management System

2026

- Co-developed an IoT-based smart gate system integrating automatic number-plate recognition, barcode verification, and ESP32-based hardware control for university gate access.
- Developed backend and database functionality using Flask and PostgreSQL, including JWT authentication, REST APIs, access logging, and real-time gate activity monitoring.
- Tech Stack: **Python, Flask, PostgreSQL, React Native, OpenCV, ESP32**

BusTrack – Real-Time Public Transport Tracking

2025

- Co-developed a real-time public transport mobile application supporting passenger, driver, and administrator workflows with live bus location tracking and route visualization.
- Developed REST backend functionality and integrated authentication, cloud data storage, real-time location updates, and Google Maps-based route features.
- Tech Stack: **React Native, TypeScript, Node.js, Express.js, Firebase, Google Maps API**

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript, TypeScript
- **Web & Mobile Development:** React, Next.js, React Native, Expo, HTML5, CSS3, Tailwind CSS
- **Backend Development:** Node.js, Express.js, Spring Boot, Flask, REST APIs
- **Databases:** PostgreSQL, MongoDB, MySQL, Firestore, Firebase Realtime Database
- **Authentication & Security:** JWT, Firebase Authentication, Spring Security
- **Data & Machine Learning:** Pandas, NumPy, scikit-learn
- **Development Tools:** Git, GitHub, Postman, Maven, Vercel, Firebase
- **Core Concepts:** Object-Oriented Programming (OOP), Debugging, Application Testing

LEADERSHIP & VOLUNTEERING

Career Guidance Society – Faculty of Engineering, USJ

Sri Lanka

Marketing Team Member – CGS Career Xplore

Apr 2026 – Jul 2026

- Coordinated promotional activities and event communication with the marketing team to support student engagement for Career Xplore.

IET On Campus – University of Sri Jayewardenepura

Sri Lanka

HR Crew Member – PCB Mastery Series

Dec 2025 – Feb 2026

- Supported participant communication, team coordination, and HR-related activities for the PCB Mastery Series.

IEEE CS Student Branch Chapter – University of Sri Jayewardenepura

Sri Lanka

Algo Ace Delegate

Mar 2025 – Dec 2025

- Supported the organizing team in coordinating programming-related activities and participant communication for Algo Ace.

CERTIFICATIONS & ACHIEVEMENTS

Advanced Learning Algorithms | DeepLearning.AI / Stanford Online / Coursera

Jun 2026

Supervised Machine Learning: Regression & Classification | DeepLearning.AI / Coursera

Jun 2026

IEEEXtreme 19.0 | IEEE – Team cyphercreations

Oct 2025
